INFORMATION DISCLOSURE STATEMENT

Dear Sir:

In keeping with the duty of candor and good faith owed to the Patent and Trademark Office, applicant wishes to make of record the items on attached PTO Form 1449. Copies of the Japanese references, including English translations where available, are provided in accordance with 37 CFR 1.98.

The Fukuda reference (An In-Vitro Medical Model of the Human Cerebral Arteries for Trial Operations) discloses a solid wax rapid prototype model that is embedded within silicone blocks (see abstract and Figs. 3 and 4).

The Ikeda reference similarly describes a wax and silicone model (see abstract and Figs. 2 and 3).

The JP 62-298376 reference is cited in the counterpart Japanese patent application and this reference discloses a membranous model replicating a body cavity; and a translucent base material surrounding the membranous model, with the translucent base material get being elastic and in adhesive contact with the same material of the membranous model which has the substantially same refractive index.

The Model 40 reference discloses a translucent body cavity model on page 139, Model 76 ("M76").

The JP 2-83438 reference discloses a light source and transmittance/reflection detector in Figs. 1 and 7.

Applicant believes that none of the foregoing referenced material, alone or in combination, anticipates or renders obvious his invention.

Respectfully submitted

Quarles & Brady Streich Lang, LLP

Gavin J. Milczarek-Desai  
Reg. No. 45,801
